

FEDERICO LONGHI

SOFTWARE DEVELOPER

PROFILE INFO

I have over 5 years of experience in designing and implementing complex solutions on the Salesforce.com platform. I've been working with multiple industries and clients around the globe designing and implementing multiple products. I possess a deep understanding of software engineering principles and have extensive experience in developing complex software systems. I also have a lot of experience dealing with software development processes, looking for improvements and implementing changes to achieve a more efficient way to work.
